equity market reinvented.

chainium

we believe the global equity market is:

- outdated
- unfair
- inefficient

why...

can’t any business raise capital by selling shares?

can’t anyone buy shares from any business in the world?

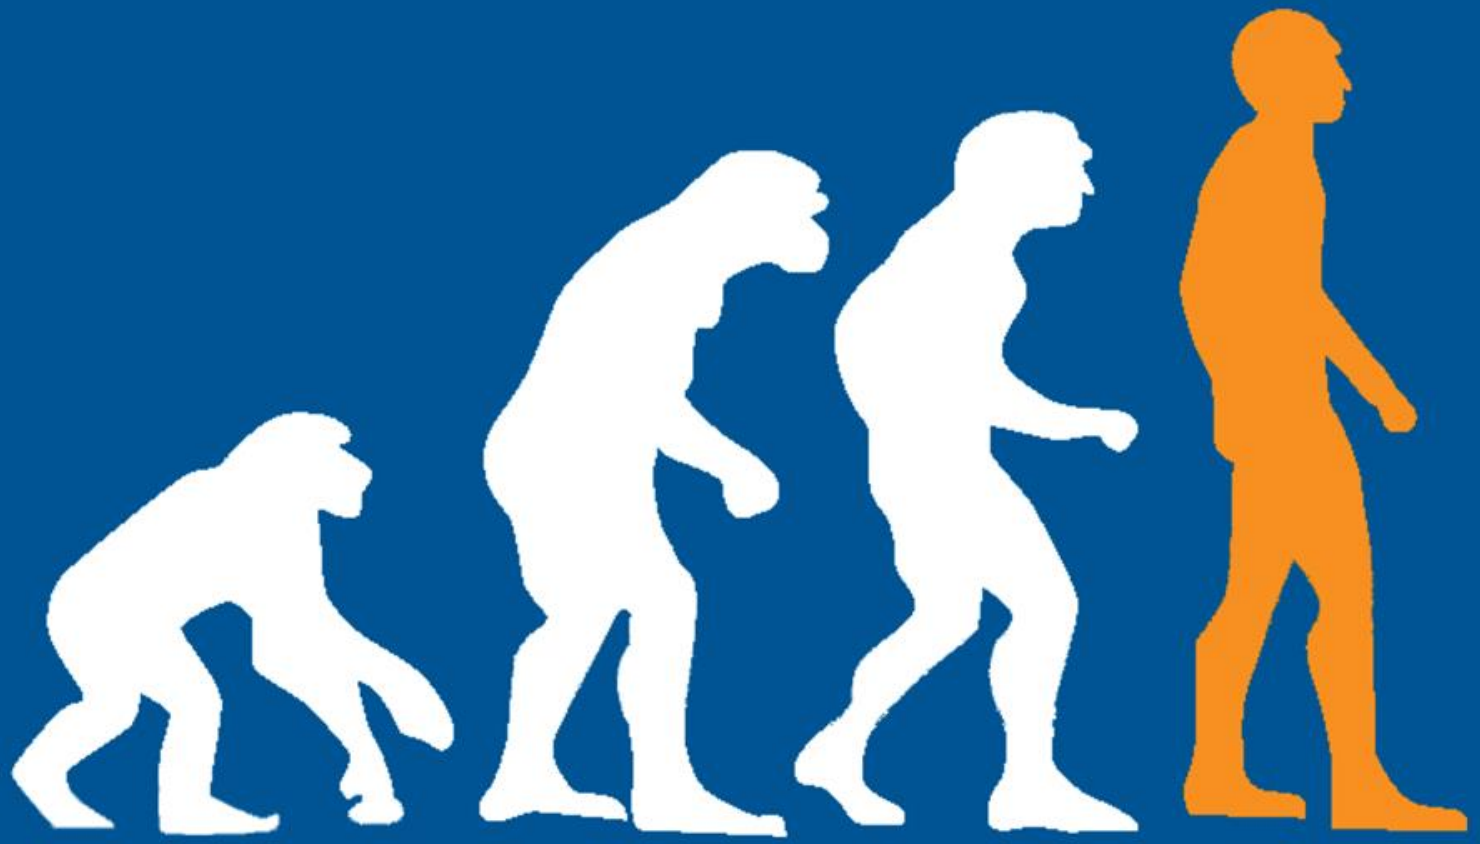
can’t we lose the middlemen and their fees?

can’t we have instant transactions?

chainium
no stock exchanges
no brokers
no banks
no clearing houses
no middlemen

global, fast, decentralised

blockchain provides a direct connection between businesses & investors



pre-blockchain
bitcoin

roadmap for delivery this year

2017 - H1

BUSINESS CASE
Ideas and concepts are turned into reality: whitepaper, technical paper, mock-ups and process designs are created and finalised.

BUSINESS LAUNCH
Chainium is founded by Sascha, Florian and Ermin, having worked in the equity and technology industry for more than 15 years. Initial launch in the UK and Continental Europe.

2017 - H2

PARTNERS & ADVISORS
Key partnerships and prominent advisory board members are added to the business.

PROTOTYPE
The first alpha release of our platform goes live, adding the investor view and app for both Android and iOS devices.

CHX TOKEN SALE
The pre-sale and public sale for CHX are launched.

2018 - H1

NETWORK RELEASE 1.0
The first production ready iteration of our platform goes live to all business owners and investors, targeting small to medium businesses.
Platform features such as API tools, apps, and useful resources will be launched into a production ready state.

2018 - H2

NETWORK RELEASE 2.0
The full feature set for listed and unlisted companies (small / medium / large) will be available for all investors and all businesses.
Supported by a global large-scale sales and marketing campaign.
